JAMES EMMANUEL PAUL YAMBASU

Survey Researcher · Data Analyst · Small Business Websites

jamesyambasu743@gmail.com | Freetown, Sierra Leone | Portfolio | LinkedIn | Upwork | Learn2Earn

PROFILE

Survey researcher and data analyst in my third year of a BSc in Mathematics and Statistics at Fourah Bay College. I design instruments in KoboToolbox, collect data in the field, clean it in Excel and write up findings clients can act on. I also work as a Personal Assistant to a research consultant at IMACS. Recent work: 29 structural errors fixed in a live XLSForm, 132 responses cleaned into an analysis-ready dataset, two websites built for Sierra Leonean small businesses, and four paid Learn2Earn bounties.

EXPERIENCE

Personal Assistant to the Technical Assistant · IMACS — 2026 to present

- Administrative support to a research consultant.
- Went with the consultant to the GC8 Funding Request Workshop (Malaria working group) and turned live transcript segments into day-by-day debriefs.

Undergraduate Research Fellow · International Youth Council on Gender Equality — Jan 2026 to present

- Review literature on gender equality and social equity, write research summaries and present the findings. Two pieces published in the organisation's columns.

Freelance Survey Researcher & Data Analyst · Upwork · MoCTI Learn2Earn bounty platform — Jun 2026 to present

- Four paid bounties won since June 2026 (SLE 1,621.50 in total, Junior rank) on storytelling, entrepreneurial problem-solving, professional presence and client management briefs.
- Survey design, data cleaning and reporting for NGO, development and market research clients.

Survey Research Assistant · Insight Research and Media Firm — Apr to May 2026

- Designed and deployed KoboCollect surveys for business, organisation and government clients, collected the data in the field, cleaned it in Excel and produced the statistical summaries.

Survey Research Assistant · Big Markit — Mar 2026

- Led a market validation survey for a Pan-African commerce platform: built the instrument, deployed it in KoboCollect and enumerated across several sites.
- Audited the XLSForm and fixed 29 structural errors, then merged and cleaned 132 responses into an analysis-ready dataset and a written report that fed the client's market positioning.

Field Enumerator · Budget Advocacy Network, Kono District — 2025

- Structured field data collection in KoboCollect across several sites for a study on women-led micro-enterprises.

WEBSITES BUILT

CESSAURA · French curls seller, Grafton · cessaura.github.io — Nov 2026

- Order page where buyers pick a colour, length and number of packets and send a WhatsApp order with the total in Leones. One-tap Orange Money and Afrimoney, cash on delivery and a full Krio version. About 175 KB; Lighthouse 100 for accessibility, 93 to 96 for performance on simulated 3G.

Relyn's Wear · Tailor, Goderich · relynswear.github.io — Oct 2026

- Catalogue of 10 styles with WhatsApp order buttons, a live open or closed sign, landmark directions from a Google Maps pin, Orange Money payment and an English and Krio switch. Lighthouse 100 for accessibility.

EDUCATION

BSc Mathematics & Statistics, minor in Geology — 2024 to 2028 (expected)

Fourah Bay College, University of Sierra Leone. Third year (Level 3).

- Selected coursework: STAT 225 Time Series Analysis. Led a group project modelling live plant growth data and delivered a report, an Excel workbook and a presentation.
